

Activity Sheet 11 – How Data Guided are You?

What sort of manager are you?

Are you someone who uses data to understand what's happening with the processes in your team or do you make a lot of assumptions based upon opinions or even prejudices?

Give yourself a score from 1 - 10 on how effective you are at using data to guide your decision making.

Why have you scored yourself in this way?

What could you do to improve your decision making through the way you use data?
